Scope and Content

This collection consists of 74 volumes of photocopies of primary and secondary source material which was collected and compiled by M. Anderson Maxey, Jr. and Marion Joyner Watson for the Suffolk Nansemond Historical Society. Maxey and Watson were members of the Suffolk Nansemond Historical Society. They went to private homes, libraries, museums, and other historical societies and obtained copies of documents and photos which had a connection to Suffolk or Nansemond County. The photocopies were compiled haphazardly and bound into hard covered books. This collection includes copies of original photographs, deeds, letters, programs, bulletins, newsprint, and published articles. This finder's guide is created to act as an expanded table of contents to make it easier for researchers to know what is included in each volume.

Provenance

This collection was created by M. Anderson Maxey, Jr. and Marion J. Watson for the Suffolk-Nansemond Historical Society in 1976.
